The screenshot displays the MEDULLA dashboard interface. At the top, there are navigation tabs for 'Dashboard', 'My Vessels', and 'Incidents'. A prominent red banner indicates 'Asset Discovery - Unconfigured Assets' with 486 un-configured assets. Below this, a table lists detected assets with columns for 'First Detected', 'Last Active', 'Vessel', 'VLAN', and 'MAC Address'. The table includes entries for vessels like Golden Nori, Osaka Express, Xin Los Angeles, Edith Maersk, and Quinquereme. A sidebar on the left shows 'My Fleet' and 'Threat Score' with a '+18' indicator.
